## NO DOUBT OF DOCTOR'S SANITY

In the Minds of Several of the Wit nesses When the Famous Will was Drawn up-Several Members of the Family on the Stand-The Testimony Will Conclude To-day.

The taking of testimony in the Pipes will contest was resumed yesterday morning in Part Two of the circuit court, Judge Hervey on the bench. The defense will likely have put on all its witnesses to-day. The respondents endeavored to show yesterday that De deavoyed to show yesterday that Dr.
John H. Pipes was sane when he drew
up the will, now contested by his son,
Dr. John R. Pipes, now of Cleveland.
E. P. Richardson and Dr. C. E.

Hutchinson, of Cameron, the first witnesses, testified to having seen Dr. Pipes in Cameron on or about November 1, 1898, when the will was drawn, and they considered him clear in mind. Dennis Meighen, in the cross-examin-

ation, was asked to identify signatures of Dr. Pipes, in which there appeared to be differences, but witness would take them all for the doctor's. They were submitted to the Jury. Captain Dovener alleged one was written by Assistant Clerk C. E. Dannenberg, of the Ohio county clerk's office.

A. J. Matthews, a justice of the peace in Marshall county, knew the doctor for thirty-five years, and had talked with him about the will on or about November 1, and the doctor said he felt relieved since it was drawn, for it had worried him. 'The doctor's mind

was apparently clear.

Henry M. Russell, of this city, had known Dr. Pipes for about ten years, chiefly through law suits. He had had conversations with him some months preceding his death, but didn't know whether the conversations were pre-vious to the doctor's illness, nor knew of his being addicted to drugs.
W. W. Pipes, an insurance man of

Pittsburgh, whose father was a cousin of Dr. Pipes, had written two policies of \$2,000 each for the doctor, and at the latter's requet, at Mountain Lake Park, in the summer of 1885, changed the bene-ficiary to T. C. Pipes, the doctor saying Tom had taken care of him, and this gift was in return for his brother's attention, Dr. Pipes' mental condition seemed good. To Capt. Dovener, witness said he came from Pittsburgh to testily at the request of Mr. Hubbard, who by at the request of air, randard, who presented a letter of introduction from Stater Pipes. Witness said he didn't know his wife was to receive any bequest from Dr. Pipes. The last policy the doctor took was made payable to his wife.

Thomas C. Pipes, one of the benefi-claries, was the next witness, and the objection on this ground was over-ruled. The witness, as far as he could remember, gave the items comprising the doctor's estates as follows:

Property on Jacob street, drug store building and brick and frame buildings. valued at about \$12,000. Another piece of property on Chapline street is worth \$1,000. He had also some interests in coal lands in Logan county worth \$600 to \$300; an interest in other property at Holliday's Cove which the witness vaiued at \$700 to \$800; interest in various lots at Loch Lynn Heights worth about \$350; a little stock in the Standard In-surance Company, worth \$300; one life insurance policy, \$5,000, payable to estate: the company refused to pay onand the other will be contested; interest in Washington, D. C., property. \$750: personal property worth \$1,500, consists of a deed of trust of \$5,871: notes to D. R. Meighen, \$950; a note on Dollar bank, \$775; a debt to the Watts' estate, \$600; some notes amounting to \$450; balance on Mountain Lake Park lot, \$300; note on Robert Stathers, \$200. There are other small amounts.

In reply to Captain Dovener, witness suid he had told the county clerk that the estate was indebted to him for about \$3,100 or \$5,200, and that the balof the policies. Witness had paid a note of \$165 for Dr. Pipes, and advanced the doctor various amounts and paid premiums on insurance policies. Witness could not recall the date of the insurance transfers, and he was instructed to get them. The insurance in question amounted to \$4,000, which was given to secure a loan of \$3,200.

Rev. John Bedlow and John Burley, of Cameron, testified that they considered the doctor perfectly sane.

Dr. S. L. Jepson had known Dr. Pipes for many years, and seen him period-ically. A. Dowler, of McMechen, was a student several years aso, under Dr. Pipes. By request he visited the doctor one day at Mountain. Lake Park; found his physical condition debilitated, his mental, unimpaired. Saw him in Cameron, at T. C. Pipes's home, one evening early in November, last vert. Dr. Pipes said he was taking large doses of beechwood dressets. Up to the last time witness saw him, the doctor's mind seemed unimpaired. Witness had heard deceased say his son, John, didn't treat him right.

To Captain Downer, Doctor Dowler said he once got cocains for Dr. Pipes, at the latter's request; this was before Dr. Pipes went to Asheville, and it was the only time witness knew of Dr. Pipes' use of the drug.

CHICAGO—Decidedly lower quotations from Liverpool and a heavy increase in the visible supply made wheat heavy to-day and caused a decline of 4.6% at the close. Corn was firm and closed 4.6% at the close. Corn was firm and closed 4.6% at the close. Corn was firm and closed 4.6% at the close. Corn was firm and closed 4.6% at the close of the corn as a shade to 7½ lower.

A decline of % c marked the opening quotations in wheat. Even at that concession there was little demand and under liquidation by shorts, mostly of a local character, caused a still further recession in prices to take place. Liverpool was slightly lower at the start, but developed radical weakness before the close of the session there. It reflected the views of the English traders in regard to to the war prospects, which are evidently considered much more remote, and this fact had a strong influence on local trading. An equally important factor was the prospects of a heavy increase has finally snnounced at 2,008,000 bushels. The local stocks showed an increase of \$12,000 bushels. Another source of weakness was the enormous primary receipts, 2,461,000 bushels, compared with 2,015,000 bushels a year ago. The opening price for December was 71% \$72% against Saturday's closing of 72% \$72% against Saturday's closing of 72% \$6725 and the market again slowly declined, keeping on the downward course until well into the afternoon. Trading was narrow. The forthcoming government cop report had a restraining influence and the absence of demand was but another factor in the weakness. The price was almost continually under puts, and not until the close was there any indication of a raily apparent. The December price in the meantime got down to 71% \$77% and not until the close was there any indication of a raily apparent. needed rain was reported in the west and northwest, permitting winter wheat sowing.

Corn during the morning was active and strong. Elevator people and commission houses were sharp competitors for all offerings, and good advance was scored. Later the feeling became ensler on predictions of general rains and part of the advance was lost. Cables were strong and higher and a good export demand was reported, New York placing the export engagements at 198 cars. The heaviness of wheat also had a sobering influence on bulls. Receipts for two days were 1880 cars. December ranged from 30½c to 30%c, and closed 460%c higher at 30%c.

The market for oats was very dull and prices kept within a narrow range. The market early was a trifle higher in sympathy with corn, but a little profit taking later resulted in a loss of part of the slight advance. Receipts for two days were 888 cars. Scalpers did the bulk of the trading. December ranged from 22%c to 23c and closed a shade lower at 22%c.

Provisions were dull and ruled frrequiar. The hog market was easy and packers disposed to sell. The cash demand was reported good, but about the only support the market received was from exporters buying against cash sales. At the close January pork was 7½c lower at 35 56% 57½, and January ribs 2½c lower at 35 56% 57½, and January ribs 2½c lower at 35 57%, wednesday:—

NEW YORK—The demand for staple cottons shows no signs of falling away and has again been larger than sellers have been willing to accommodate. Heavy brown sheetings and drills, without actual advance, are still tending upwards. Bleached cottons not easy to buy in any quantity at full prices. Cdarse colored cottons strong, with upward tendency, staple prints strong, most narrow odds advanced 1-15 to ½c per yard. Woolen and worsted men's wear fabrics quiet. Jobbing trade good in all departments. good in all departments.

Metals.

Metals.

NEW YORK—Interest in the local market was at a low ebb to-day, with the close dull and nominal. Tin fell 20 points under absence of buyers rather than pressure of offerings, other metals showed no price changes whatever. At the close the metal exchange called pig fron warrants nominal at \$18. Lake copper dull at \$18 50. Tin quiet and easier with \$32 15 bid. Lead unchanged with \$3 60 bid and \$4 65 asked. Spalter unchanged with \$3 6 bid and \$5 55 ked.
